Aviation Inventory Resources Acquires Major Saab 340 Aircraft / Spares Package

For Immediate Release:
October 1, 2016- Alvarado, Texas

Aviation Inventory Resources, Inc. announced today it has acquired 19 Saab 340B aircraft along with a major spares inventory from Envoy Air Inc.

The package represents the largest ever single aftermarket aircraft/spares transaction for the Saab 340. The spares inventory of more than 11,000 line items will be relocated to AIR's main facility in the Dallas/Fort Worth, Texas area. AIR will disposition the aircraft on a scheduled basis.

The acquisition cements AIR's position as the world's largest aftermarket Saab inventory support organization and allows AIR to expand its popular **AIRcare** managed inventory program, which offers operators of the Saab 340 affordable and reliable parts support. **AIRcare** is available in flat rate exchange, "plus cost" exchange, and per flight hour versions.

About Aviation Inventory Resources, Inc.: A.I.R. has been a premiere supplier of regional aircraft spares since 1999. Based in Alvarado, Texas, the company specializes in the Saab 340, ATR 42/72, Embraer ERJ and Beech 1900 aircraft. A.I.R. is accredited by the Airline Suppliers Association's ASA-100 program. A.I.R. supports regional airlines around the globe with around the clock AOG service and is a member of The **AIR Group**, which includes Aviation Repair Resources, Inc. (an FAA/EASA Part 145 Repair Station), and Chartair (an aircraft sales and leasing company).
